Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Sunday 11 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Heavy showers possible today and Monday. Turning drier thereafter.

Today:
A dry start for most, and bright in the east initially. Through the day, showery rain spreads in from the west, affecting the whole region by the late afternoon, with some heavier outbreaks later. Maximum temperature 19 deg C (66 deg F).

Tonight:
Outbreaks of rain continue through the night, with the heaviest rain falling over Cornwall and Devon early on. Low-lying cloud is likely to produce hill fog over upland areas. Minimum temperature 11 deg C (52 deg F).

Monday:
A cloudy morning with patchy rain. Scattered showers developing through the day, especially in southern areas, some of which could be heavy and thundery. Sunny spells forming in the afternoon. Maximum temperature 21 deg C (70 deg F).

Outlook for Tuesday to Thursday:
Sunny spells on Tuesday, with some showers, heavier in the east. Dry with many sunny spells on Wednesday. Low cloud and drizzle on Thursday morning, clearing to sunny spells later.
